List ABCDE

SLD Explanation: The service/product requested is not being used in accordance with program rules.

From the Eligible Services List:

Eligibility: A stand-alone intercom system is not eligible for discount because it does not facilitate the transport of an eligible telecommunications or Internet access service. However, an intercom system that is an integral part of a PBX, Centrex, or key system can be included as an ancillary component of the PBX,

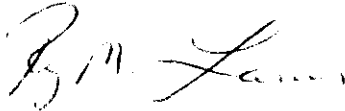

Centrex, or key system. Please see the Special Eligibility Condition below for further information.

Rationale:

The intercom system that was requested is not a stand-alone system in the sense that it uses the Cisco IP phones as the intercom speakers. This makes the solution cost-effective because it takes advantage of existing infrastructure.

We would like to request that you reconsider the denial for this FRN.

Respectfully Submitted,
